34870749		<p>Kim: Completely out. "Manual Order Only" for the past 5 months. Script volume has not changed recently. I have asked replenishment to review the ordering process for this item.</p> <p>Robert: I let Robert know that they have been ordering the wrong NDC and that is why the system is telling them that they need to order manually. I provided him with the correct NDC and he said that this is not the preferred brand and that the replenishment team needs to change it. They always run out over the weekend.</p>			1200
